slightly different

Benefit from Pharos expertise in dynamic architectural lighting with Expert, an all new, practical, and straightforward control solution. With its new approach to programming, the Expert software guides you through setting up and creating your lighting designs with helpers and walkthroughs. Output to your DMX and DALI fixtures using Expert Control, a single set-and-forget lighting controller.

Complementing the range is Expert Touch, a stunningly elegant wall station with a seamless, uninterrupted glass front plate. Accessories Expert Repeat and Expert Switch are available for data and PoE distribution.

**Expert makes light of it.**

## EXPERT CONTROL

With the reliability you expect from Pharos and our expertise in dynamic lighting in architecture and entertainment: an easy to install, easy to use control solution.

**One controller:** All you need. One box. Compact DIN rail enclosure with solid-state hardware for 24/7 operation and reliability

**Straightforward installation:** Just PoE or 9-48V DC to power it, then install-friendly rising-clamp connectors and you're ready to go

**Instant line testing:** Out-of-the-box test modes on rotary dial for output ports; push button allows raising/dimming levels for fixture testing

**Network connectivity:** Whatever suits your installation – from a single Ethernet cable direct to a laptop, or to the Internet and Pharos Cloud

**Output to suit you:** Available in 512 channel and 1024 channel DMX capacities, plus support for 64 DALI ballasts

**Easy I/O integration:** The two inputs/outputs provide contact closure and low-volt relays to interface with other controls and sensors

**Intuitive programming:** Layout your project and program your lighting using the free Expert software from Pharos
